EXPERIENCE

Data Analyst Intern — QuadSync Tech Solutions

2026 (2 months)

- Cleaned and analyzed 1,000+ rows of business data across multiple datasets using Excel and SQL, improving accuracy and consistency of source data for reporting
- Built 3+ Power BI dashboards used for weekly business reporting, enabling faster tracking of key sales and performance KPIs
- Generated recurring MIS reports using Pivot Tables and charts, cutting manual reporting effort by standardizing reusable templates
- Validated data across weekly reports to catch and resolve discrepancies before submission to senior analysts

PROJECTS

[Amazon Global Sales Performance Dashboard \(Power BI\)](#)

Built an interactive Power BI dashboard analyzing 3 years (2022–2024) of Amazon Global Sales data across multiple regions and product categories. Designed 10+ DAX measures, KPI cards, slicers, and drill-through pages to surface sales, profit, and regional trends for business intelligence.

[Techno Sales Dashboard \(Power BI\)](#)

Developed an end-to-end Power BI sales dashboard by cleaning, transforming, and modeling raw sales data. Built custom DAX measures and interactive KPI cards/slicers to monitor revenue, customer behavior, and product performance.

[Sales Dashboard Project \(Excel\)](#)

Built an interactive Excel dashboard using Pivot Tables, Pivot Charts, Slicers, XLOOKUP, and conditional formatting to automate recurring reports and visualize sales trends across multiple product lines.

[Resume Maker Web Application \(InstaCV\)](#)

Developed a full-stack resume builder (Python, Flask, HTML, CSS, JavaScript) with dynamic user-input handling and automated resume generation, producing ATS-friendly resumes with a responsive UI.
